

Dear Members and Friends:

Following the results of the U.S. elections on November 8, the Ukrainian Congress Committee of America asks its members and supporters to aid in our continuing efforts in maintaining bipartisan support for Ukraine with our elected officials both in the final weeks of this legislative cycle as well as the coming year. As we continue to keep you abreast of our communications with Congress and the new White House administration, we ask that you review our attached statement detailing the goals we will seek to help enact with the country's new leadership as well as after significant turnover in top Congressional posts next year.

As we are all too aware, the work of Ukrainians in America and our many organizations is needed more now by our family and friends in Ukraine than in recent memory, given Russia's latest efforts to enslave Ukraine. Only by continuing to strengthen and add to our coalition, will victory come in the form of a Ukraine, whole and free.
