How can everyday Americans help maximize Aid to Ukraine:

- **Vote in every election!** To maximize political attention on the question that matters most to you - *Ukraine’s victory over foreign invaders* - supporters of Ukraine need to show up at the polls in bigger and bigger numbers. Political parties gather data on all of us, ranging from purchasing history, social media behavior as well as Census information, in order to get a fuller understanding about potential voters. Background data for those individuals who actually vote in elections is updated regularly and is fed back to the parties. Regardless of which individual candidates win on the local, state or federal level, communities with increased voter participation will be acknowledged after the election as a voting bloc that needs to be addressed based on the data.

- **Engage with elected officials - Part 1!** UCCA’s next “Ukrainian Days” advocacy event will be held in Washington, D.C., on **November 15-17**, AFTER the midterm elections. This event will be an important opportunity to advocate with already sitting Members of Congress for increased security assistance for Ukraine BEFORE the end of their term. Congress approved a short-term Continuing Resolution to extend
decisions will be left to defeated or retiring lawmakers to vote on before leaving office in the new year. **Register today for Ukrainian Days** to help advance our community’s concerns in Washington after showing up at the polls on Election Day.

- **Engage with elected officials - Part 2!** More so than in the previous two election cycles, this year’s Midterm elections will result in stark changes in Congress. This results from the normal, statutorily mandated re-drawing of Congressional and State Assembly districts, meant to reflect the changes discovered in the 2020 Census. This pattern repeats every 10 years, with many incumbent legislators choosing to retire instead of moving to a new electoral district, or incumbent legislators failing to convince new voters in their districts to elect them. Following such changes in your area, supporters of Ukraine should do their very best to schedule local meetings with their newly elected representatives AFTER the midterm elections, regardless if these individuals were your preferred candidate for the office.

UCCA members and all supporters of Ukraine who are eligible to vote are encouraged to visit [www.vote.org](http://www.vote.org) to find out more about Where, When and How to vote in this year’s elections.

Holodomor Genocide Commemorations

Each year, UCCA solemnly commemorates the Holodomor Genocide of 1932-1933 – one of the darkest pages of our people’s history. Marking the solemn anniversary of the Holodomor remains an essential component to educating our youth and raising awareness of Stalin’s Famine-Genocide of Ukrainians.

UCCA is grateful to our local branches and membership who not only actively engage their local governments in marking this historic anniversary with local and statewide Proclamations, but also help garner support for Holodomor statements from the U.S. Senate and House of Representatives.
A Proclamation

WHEREAS, many years ago, several thousand Ukrainian patriots and their supporters organized a movement to defend the rights of their fellow citizens, who were being persecuted by the Soviet regime; and

WHEREAS, the historical facts of the Holodomor, including the official statistics, are widely acknowledged and documented by the Ukrainian and international communities, and have been recognized by countries around the world; and

WHEREAS, the Holodomor, also known as the Famine of 1932-1933, was a catastrophic event that resulted in the deaths of millions of Ukrainians and caused significant economic and social disruption; and

NOW, THEREFORE, I, [Name], Governor of the Commonwealth of Massachusetts, do hereby proclaim November 17, 2023, as the Ukrainian Genocide Remembrance Month in the Commonwealth of Massachusetts, to raise awareness of this tragic event and its impact on the Ukrainian community and the world.
