US UKRAINE SECURITY DIALOGUE XV

Taking Measure of Ukraine's Defense Capabilities & Needs After a Year of War

Dear Friends of Ukraine:

You are respectfully invited to attend **US-Ukraine Security Dialogue XV: Taking Measure of Ukraine's Defense Capabilities & Needs After a Year of War**, scheduled to take place at the [National Press Club](#) in Washington DC on February 28, 2023.

The event will feature six panel discussions and three highlight focus sessions. The six panel discussions will be dedicated to examining Ukraine's ability to properly engage in war along classical security dimensions: land (regular/territorial); sea/maritime defense; air/air defense; cyber warfare/information warfare as well as its capacity to adequately maintain its infrastructure assets (whether military or civilian) and energy resources. The three highlight focus sessions will give prominence, as tradition would have it (and as present circumstances clearly would recommend it), to considering why Ukraine's security matters enough to its neighbors and the world at large to merit serious military assistance in time of need.

The complete program (subject to change), along with a list of invited speakers, is provided below.

Due to the time constraints involved with organizing such an affair, the co-sponsoring organizations (the [Center for US-Ukrainian Relations](#), the Ukrainian Congress Committee of America, and the [American Foreign Policy Council](#)) kindly ask that you RSVP no later than February 22, 2023 concerning your attendance in person or register for through Zoom to attend virtually.
