Since February 24, 2022, when Russia began its genocidal war against Ukraine, the Ukrainian Congress Committee of America, the largest umbrella organization representing nearly 2 million Ukrainian Americans, has been confronting humanitarian and military challenges with direct support. A year later, we're proud of what we have achieved.

Please review UCCA's newly released "Humanitarian Effort – One Year Report," outlining the humanitarian aid and non-lethal assistance UCCA has been able to deliver in the first 365 days of this brutal war is thanks to the generous donations, in-kind contributions and invaluable support we have received from YOU and our amazing partners.

UKRAINE US BUSINESS NETWORKING SERIES FORUM XI

Ukrainian Institute of America

April 26, 2023

Dear Friends of Ukraine:

You are respectfully invited to attend the **US-Ukraine Business Networking Series Forum XI: "Let the Reconstruction Process Begin – But What, How, When, Where"** scheduled to take place at the Ukrainian Institute of America in New York City on April 26, 2023.

The event will feature five panel discussions and three highlight focus sessions. The five panel discussions will be dedicated to applying the forum's "what, who, where, how, when" questions to five key industrial sectors of Ukraine: infrastructure, energy, agriculture, military-industrial work, hi-tech. The three highlight focus sessions will be asked to imagine an appropriate take-off game plan, contemplate the proper coordinating body for such a game plan and divine how the US government and US NGO community might help in the stated processes.

The complete program and roster of presenting participants is provided below. You are welcome to participate in any and all listed sessions. Your presence would certainly enhance the proceedings you chose to join.

37th COMMEMORATION OF CHORNOBYL

power plant in Northern Ukraine. On this sad anniversary, the Ukrainian Congress Committee of America (UCCA), the largest representation of Ukrainians in America, remembers the thousands of deaths directly linked to this nuclear explosion. All Ukrainians take time every April 26 to honor the hundreds of emergency workers who responded to the catastrophe and remain united in our call for justice for the hundreds of thousands who were uprooted from their homes and the millions who suffered and continue to suffer from health issues related to the tragedy at Chornobyl.

Unfortunately, Russia's illegal and unjustified aggression in Ukraine again jeopardizes the world with a potential nuclear plant disaster. The Kremlin has targeted and occupied Ukrainian nuclear sites, recklessly damaging the facilities, along with the related war crime of shelling critical civilian infrastructure objects. This jeopardy has escalated since the military occupation of Europe's largest nuclear plant - the Zaporizhzhia Nuclear Power Station at Enerhodar - triggered alarm across the world. The unlawful occupation and the interruption of normal operations at nuclear facilities, including the prevention of personnel rotation, undermine the safe and secure operation of nuclear power plants in Ukraine and significantly raise the risk of an accident.

Today, as we mark this solemn anniversary, UCCA reaffirms its resolve to do our part in ensuring that the ongoing needs of the victims of the 1986 Soviet tragedy in Ukraine are not forgotten, while at the same time calling on the international community and all relevant actors to immediately start a global discussion on how to improve existing international instruments to protect nuclear sites in the context of war.

SAVE THE DATE - “Ukrainian Days” in June 2023
