Skydio Drone... a new lease on life & fight...

UCCA originally donated the Skydio drone back in April 2022 to a territorial defense unit (top picture). The soldier who operated the drone recently returned from the frontlines and was assigned to a new position. As a result, he returned the drone and UCCA's Country coordinator, Roman, was able to donate the used drone to the National Guard.

The General of all the Border Guards accepted the drone (bottom picture) from Roman.

Soldier safely returns, drone gets a new life!
