

Humanitarian Update #77

as of November 16, 2023

Ophthalmology microscope arrives in Lviv, Ukraine

Thanks to a cooperative project between Rachael Ray, UMANA and UCCA, the Lviv children's hospital has received a precision surgical microscope specifically designed for use in ophthalmic applications.

UCCA-donated
Medical supplies...

are delivered to the Pediatric and Intensive Care hospitals of Kremenchuk (Poltava Oblast) which received many wounded civilians and soldiers during the last week of September without any additional support from the administration.

UCCA 10,000+ GENERATORS Project

*A few portable generators
were delivered to
Ukraine's defenders in the
direction of Donetsk*

...and a few more were delivered to units protecting Ukraine's frontlines in the south.

UCCA procures and delivers computer and critically needed extenders to specialists on the frontlines.

Humanitarian Assistance

UCCA packed care packages filled with food, medicines, baby & adult diapers, clothes and cooking stoves for the residents of Lyman, in the Donetsk Oblast, because they continue to be under constant fire.

Medical Supplies

Another truckload of medical supplies donated to UCCA arrived in Kyiv this week for further distribution in Ukraine, including to Dnipro.

#SupportUkraine

UCCA continues to seek your support.

Since before February 22, 2022, UCCA worked with partners to stock warehouses full of medicines and pharmaceuticals. Then, as Russia unleashed its genocidal war, UCCA began delivering crucial non-lethal military assistance to our freedom fighters defending democracy against tyranny and providing direct relief to help alleviate the humanitarian challenges Ukrainians face due to Russia's unprovoked invasion. UCCA's support has not relented! #SupportUkraine Humanitarian Assistance continues, thanks to the backing we receive from individuals such as you – THANK YOU!

In the season of giving, UCCA hopes it can count on your continued generous financial contributions!
