Dear Friends of Ukraine,

The threats to Ukraine's sovereignty and security are multi-faceted, including the potential completion of the NordStream2 political pipeline. Given the continued threat of Kremlin aggression against Ukraine, the NordStream2 project is still active and we must pursue all measures to halt its future operation.

To raise the profile of the NordStream2 pipeline sanctions, the Ukrainian National Information Service (UNIS) urges you to contact your senators to support S.3436, the Protecting Europe's Energy Security Implementation Act. The vote for the bill in the U.S. Senate is scheduled for no later than January 14th. An article about the bill is provided in a link below:

Please contact your senators' offices and express your deep concern about the security vacuum which would occur should the NordStream2 project be operational. Below (and attached) please find an Action Item and sample letter for your convenience. To contact your senators, please visit www.senate.gov.

Your communication with your senators will denote the importance and urgency to stop the completion of the political pipeline.

Sample Text to Senators

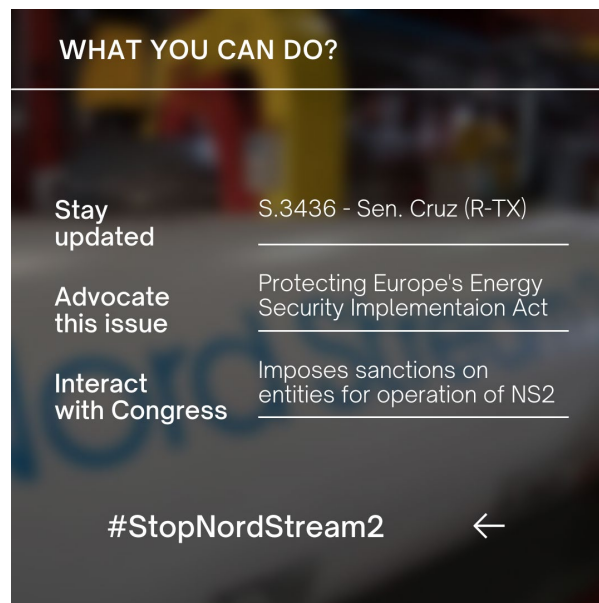

Dear Senator (name):

As a constituent, please support S.3436, the Protecting Europe's Energy Security Implementation Act, a bill that enhances sanctions against the completion of Russia's NordStream2 political project. Current Russian threats against Ukraine, including the completion of the NordStream2 pipeline, threaten the security of a Europe "whole, free, and at peace."

Your support is greatly appreciated.

Sincerely,
(name)
