War!

Russia Invades Ukraine

Russia continued fulfilling its bloody manifest destiny by escalating its eight-year war against Ukraine with an unprovoked full-scale invasion on February 24, 2022. In the ensuing weeks it rained death and destruction on Ukrainian cities, killing innocent civilians in cold blood, many of whom were desperately seeking to escape the invaders.

However, the massive heroism of the singularly unified Ukrainian nation and military, led by its now legendary President Zelenskyy, has stalled Moscow's blitzkrieg to the surprise of the free world.
